Comments on: SAP System Audit - Post Implementation Audit Hi David, Great to know that my efforts were helpful. I am not sure on which companies perform system audit. I am now specializing on SAP audit and trying to complete one round of in house audit. Will update you if I come across any partner. Yes you absolutely right, we need to make sure our foundation is strong before making any ...

Comments on: SAP System Audit - Post Implementation Audit

The audit of the implemented SAP systems highlights the weaknesses, gaps & checks and balances of the implementation. The audit can be done pre- & post implementations as well. Engagement in pre-implementation stage identifies the weak areas and thus minimize risks by eliminating implementation errors on the initiatory stage both. In post implementation the system audit provides a higher view ...

So he decided to conduct his first ever post-implementation audit (PIA) of the new system. A PIA is a top-to-bottom evaluation of the hard and soft benefits derived from a strategic information ...

How to Conduct Post-Implementation Audits | CIO

Although every large-scale system implementation is unique, the risks inherent in these programs are largely consistent across all programs. The internal audit (IA) function can help significantly reduce these risks by playing a role that is educational, consultative or audit in nature, and by bringing deep independent subject-matter

expertise to the most common risk areas.

System Implementation Internal Audit Support Areas ...
