### **Chapter 19 Bacteria and Viruses Section 19-1 Bacteria ...**

19. Bacterial infections are caused by bacteria either breaking down the body's tissues for food or releasing harmful toxins into the body. A viral infection results when viruses infect body cells, take over their cellular functioning, and begin replicating themselves. In the process, viruses can destroy body cells.

This is also one of the factors in getting the software documents from this [Section 19 Bacteria Answers Key](#) online. You might not need more grow old to spend to go to the books instigation as well as research for them.
