### **Sensation and Perception - Test bank**

Sensation and perception are two separate processes that are very closely related. Sensation is input about the physical world obtained by our sensory receptors, and perception is the process by which the brain selects, organizes, and interprets these sensations. In other words, senses are the physiological basis of perception. Perception of the same senses may vary from one person to another ...

### **Read Online Sensation And Perception Wolfe 2nd Edition**

Sensation & Perception, Fourth Edition, introduces students to their own senses. Human sensory and perceptual experience is emphasized, and the neuroscientific underpinnings of that experience introduced. By integrating current findings alongside the basics, the authors impart to students that these are active areas of research.
