### **Sony Trinitron Troubleshooting**

You will need no special prior expertise to troubleshoot your Sony TV. It's a natural instinct to turn to the help of a trained television professional to handle the troubleshooting and repair of your Sony Trinitron TV. However, you don't need to open up your wallet just to free yourself of television problems.

Many of the later model Sony TV's have a built in self-diagnosis function. If the timer/standby indicator is blinking, this could be an indication of a problem with the unit. The diagnostic blinking will occur automatically with no action required by you to engage it. The timing of the blinking you see would be as follows: two to nine blinks, (depending on the fault), about a third of a ...

Le Trinitron est une technique et une marque commerciale déposée de tubes cathodiques mise au point par la Compagnie française de télévision (CFT) et commercialisée par Sony en 1968, à la suite du rachat du brevet déposé par la CFT. Il a été officiellement abandonné en 2006 lorsque le constructeur a annoncé vouloir concentrer ses efforts sur les LCD.

Trinitron is Sony's brand name for its line of aperture-grille-based CRTs used in television sets and computer monitors. One of the first truly innovative television systems to enter the market since the 1950s, the Trinitron was announced in 1968 to wide acclaim for its bright images, about 25% brighter than common shadow mask televisions of the same era.
