Study Guide for Residential Carpentry & Repair, 2nd Edition. A carpenter is only as good as his or her tools. You must have a good set of tools, know how to use them safely and properly, and take care of them. You must also know the proper tool to use for each task. Choosing the wrong tool can damage the material being worked on. A carpenter uses a variety of power tools including power saws and pneumatic nailers. These tools are dangerous to the user and others if they are not handled ...
