Technics Digital Piano Repair

If none of the above steps work, try resetting your Technics keyboard or piano. While pressing the three lower left buttons in "Rhythm Group" (these buttons are "soul & disco," "gospel & blues," and "country and western,") turn the power button on again. This will reset all functions to their factory settings.

How to Repair a Technics Piano | Our Pastimes

I repair a lot of Technics pianos. I think they are worth repairing because most of them sound really good and have a lovely action so they feel great to play too. The owners also think these are worth repairing. I'm often told that they prefer their Technics piano to any of the current models by Roland and Yamaha!
