The Structure of Classical Diffeomorphism Groups ...

The Mather-Thurston theory relating foliations with diffeomorphism groups is outlined. A central role is played by the flux homomorphism. Various cohomology classes connected with the flux are defined on the group of diffeomorphisms. The main results on the structure of diffeomorphism groups are applied to showing that classical structures are determined by this automorphism groups, a ...

The Structure of Classical Diffeomorphism Groups ...

En mathématiques, un difféomorphisme est un isomorphisme dans la catégorie usuelle

des variétés différentielles: c'est une bijection différentiable d'une variété dans une autre, dont la bijection réciproque est aussi différentiable. Image d'une grille à maille carrée par un difféomorphisme du carré dans lui-même.

Buy The Structure of Classical Diffeomorphism Groups (Mathematics and Its Applications) 1997 by AJAYI, Deborah (ISBN: 9780792344759) from Amazon's Book Store. Everyday low prices and free delivery on eligible orders.

The Structure of Classical Diffeomorphism Groups ...

The diffeomorphism group of M is the group of all C^r diffeomorphisms of M to itself, denoted by $\text{Diff}^r(M)$ or, when r is understood, $\text{Diff}(M)$. This is a "large" group, in the sense that—provided M is not zero-dimensional—it is not locally compact. Topology. The diffeomorphism group has two natural topologies: weak and strong (Hirsch 1997). When the manifold is compact, these two topologies ...
