The Wu Liang Shrine Ideology

That is to say, it is the most important single work of visual art from the centuries that set the patterns of Chinese thought for almost two millennia. Wu Hung does a superb job analyzing the Wu Liang Shrine. His comprehensive narrative is written in a highly readable style, with excellent discussions of the history of the site, the interpretation of the bas-reliefs, and the philosophy of the age. Wu's personal conclusions are debatable, but valid within the framework of his thesis. I highly recommend this book to anyone interested in Han cosmology, architecture, or social history.
